② Letter from the V.M in Cao Bang to Tông Bộ

Dear Tông Bộ

Cao Bang has for long possessed the revolutionary reputation in the upper land. But before the system was in disorder, propaganda was not lively, so the organization was not broad-based and stable.

Since it was led by the Tông Bộ Viet Minh, the movement has been rising quickly, attracting all strata of old people, peasants, women, the youth, soldiers, pioneers and the ethnic minorities of Thổ, Nùng, Mán onto the road of solidarity and struggle.

More and more people have joined the associations, the members have become more enthusiastic, cadres have become more experienced, ^{publications} newspapers have been continued, nearly 100 training boards have been set up.

On Oct. 15 lunar, we held the all province deputies' conference to discuss problems and elect the executive commissions of different strata and the V.M official committee of the province. From then on, the organizational system has been improved and consolidated, the expansion of the organization have been better facilitated than before.

As has been speculated by the Tông Bộ's letter to our

conference, we realize that the world situation is going more critical. Our opportunity is approaching us. We promise to try our best to overcome all difficulties, to dedicate all strength of the Cao Bang people to the entire force of the country and take advantage of the approaching opportunity of liberation, in response to the heartfelt expectations of Tong Pro who has been guiding our province for such a long time.

Let's us raise our hands to salute Tong Pro and chant:

All people Unite!
to Fight Japan and France!
Independence to Vietnam!
Long live Tong Pro V. M.!

Cao Bang V. M. province Committee.
