Young people are the
masters of the country
To be the young people,
they must be glorious

Special issue on youth

* Young People ! Rush forward !

These are young people. They are very enthusiastic. They are unmarried. They are busy with their daily miserable life. They haven't got their own cause. They have only one thing to do. That is to save the country. They have good health. They are eager for making progress and are tireless in their work. They do not lose hope though the matter is hard to settle. They are strong enough to do anything.

Young people are, therefore, the vanguard the campaign for national salvation. If the vanguard is always strong, enthusiastic, and offensive, the enemy will not be able to resist and victories are at their hands.

That is the position of young people in our cause for national salvation.

Short of a movement for young people

Young people are so important, but we haven't created a strong movement in which the young people can take part.

The ranks of the young people were mixed with those of other strata of the society. Their work was also mixed with that of others. So the young people can be no longer the vanguard in the national salvation campaign. They have lost their important position. And therefore our campaign will not be strong enough to advance.

Resolution available, but not implemented

In C.B. the young people have their own organizations at all levels from the village to the province. And they also have their own leading organs at all levels from the village to the province. These organs now and then hold a meeting and make a lot of right decisions such as: young people should volunteer to develop, consolidate, study, fight terrorism, self-defend, explain the newspaper, teach other people how to write, support the newspaper etc.... But very few resolutions have been implemented. In that case the resolutions become meaningless. The biggest mistake lies in that.

Executive committees should implement the resolutions

In short, C.B. has not created a strong movement for the young people because the local organizations have implemented the resolutions made by the higher. The local organizations are to blame.

But the executive committees at all levels from the village to the province have not worked out detailed plans in order to implement those resolutions. The executive committees are to blame. This is a bigger mistake. Committees are elected to implement the resolutions, but they did not do. So what are they elected for?

Because of their failure to implement the resolutions, the executive committees rarely meet for discussion and review their work. They do not engage political activities and never hold a meeting of cadres.

Committees! Young people!

It is an urgent job to work on how to implement the resolutions. If all resolutions are fully carried out at their levels from the district to the province, we will create a strong movement of the young people, thus making the youth organization a vanguard of our nation.

B.V.

Volunteering to support B.S.

In support of B.S. young people in general, young women in particular, are very enthusiastic in doing so.

In DR. District Canton B village Z held a meeting raising 107 \$ 00; village d 106 \$ 00. In a Man area a meeting of 40 people collected 68 \$ 00. Many people in this meeting burst into tears when they learnt the painful sacrifices of the Man people.

Spring

Who in the future will establish a common life
what at present has enough ability.

To overthrow a regime

which is dishonest, cruel and greedy?

Only can we do as a superordinary young
age.

with an exacting mission to change the world.

To Huu.

Acknowledgement

Gr. H.Z. Offered a bottle of honey. A Man
woman offered two kilos of honey. The
volunteering section of S.R. District offered
20 kilos of rice; the newspaper-explaining
section C. offered 13 kilos. Gr. C.C region M
Offered a bottle of wine. Gr. H.N. Offered
a pair of shoes and a kilo of salt.

News among young people

1) In many places young people have
organized volunteering groups such as
ones for development, teaching people
how to write, explaining the newspaper,
fighting terrorism, and in support of
the newspaper. But few groups got
good results in their work. Only some
in S.R. District work and get good
achievements.

2. Young people like singing. But in the
last flag salute the singing in chorus
was not so good. That's a big mistake.

Thus young people, both male and female, soon have their singing groups and practise so that they can sing in meetings later.

3. A letter - Dear Newspaper reporter, We are young people. We are enthusiastic and ready to volunteer. But we do not know how to organize volunteering groups and do the volunteering work. We have been expecting help from executive committees of young people from the district and the province for some time. But so far nothing happened.

So the reporter is requested to publish this letter for that purpose.

Some young people in DR District.

World news

The Germans suffered heavy setbacks. They are losing all their strength. In the next issue there will be an editorial on the Russian - German War.
