(1) A Communiqué on the Monthly Fees: Regulations of collecting monthly fees. The fees must be submitted on time by members. Who does not follow them strictly will be reprimanded.

(2) Monthly Fees - to be submitted correctly!

1. Why must we give is the monthly fees? We unite all the people, organize the national salvation associations and the V.M. to fight Japan and France. Our task is great and heavy. In order to accomplish it, we need money. Where do we get that money from? It is contributed by members and called monthly fee which is used to buy paper, ink and spend on other things.

2. Shortcomings in giving and collecting month fees. We did not give in the monthly fees in time. For 7 months the V.M. province committee has not received a cent of the fees!!! Please imagine! How could the V.M. province committee manage to buy paper, ink and other things? That is the shortcoming of the executive boards of the district and province committees.

3. How to correct the shortcoming? From now on the fees will be collected in time and they should not wait for the meeting.

(3) A Communiqué on clandestine cadres:

1. From now on the clandestine cadres are allowed to visit their families after 6 months of work. On the special occasions (the cadre is ill or he has an urgent work at home ...) the V.M. province committee may permit him to visit home. The province committee has adopted this decision because recently the clandestine cadres have visited home a lot wasting so much time and causing troubles to communication.
