### ② Comrades with Commending

③ A good Idea: comrade K.T, head of canton 2, district H.T wrote to the newspaper proposing: the sub-groups, the national salvation executive boards and the V.M must hold meetings as scheduled to review the old work and adopt resolutions for new work. Then the work will get under way smoothly.

The newspaper V.M.D.L calls on members and cadres to take comrade K.T's idea.

### ④ Combat self-defence

Cadres and members are expected to organize combat self-defence units which are planned to accomplish all the work that are impossible for the ordinary self-defence and train themselves to become guerrilla units.

To organize the combat self-defence units, the enthusiastic, courageous, dedicated, strong persons in the ordinary self-defence must be ~~clear~~ selected. Therefore the localities which have already formed the ordinary self-defence units must pay attention to the forming of the combat self-defence units. And the localities which have not formed the ordinary self-defence must as soon as possible organize and train the ordinary self-defence first.

### ⑤ Domestic News

1. In Bac Kan, this year France collects poll tax and land tax at the same time. And France orders the ~~farmer~~ households

to report their assets of gold, silver, bronze. Time will come when France and Japan confiscate all our property, because then they will be in danger. If we want to live we must unite closely and carry out ~~through~~ thoroughly the ~~sober~~ earth plan.

### ⑥ World News

1. (...) In summer of 1942, Germany only advanced on one front. In the summer of 1943, Germany dare not to launch offensives. So the day of defeat is approaching Germany.

It is even more perilous for Italy than Germany: Britain, America have completed capturing some small islands between North Africa and Italy and it appears that they are going to attack Italy.

2. In the Pacific Ocean America has captured the island Rongerik of Japan. Japan Angered by its defeat, Japan deployed a lot of warships and planes to launch counter-offensives, ~~but~~ <sup>only</sup> to no avail.
