The Independent newspaper.

A major slogan changed.

In the past, our main slogans were:

- all people unite
- prepared for armed uprisings
- Struggle against French and Japan!
- Independence for Viet Nam!

In these above-mentioned slogans, The slogan: "struggle against French" now is not suitable. In the past we called for <sup>the</sup> struggle against French because at that time, French was invaded by German fascists. The petank government in France surrendered German and in Viet Nam ~~the~~ general governor, Đō-lu gave power to Japan. But since the German fascists were driven out of France and

women codes, if you have menses, you have to tell it to your comrades in charge not to give you heavy work such as passing rivers.

That is normal thing, don't be shy.

- For the persons who are in charge of looking after women, you should pay more attentions to women comrades and often tell them to keep hygiene.

If anyone who is ~~not~~ <sup>ill</sup> well as a result of not knowing how to keep hygiene during your menses, please try to find herbal remedies such as drinking hot tea, you will recover quickly.

De Gaul government took power,  
we can no longer call fighting  
the French as before.

France now is an important country  
in the alliance against aggressions

France is now our ally in the  
struggle against aggression and  
fascists. If now we continue  
carrying the same policy as in  
the past, it means that we carry  
a policy against our alliance.

That is not right.

But among the French in the  
Indochina, there are still a handful  
of French supporting Japan,  
they refuse to go with alliances  
against aggressions. They  
suppress revolutionary movements  
in Indochina. They are French  
fascists. They are our enemy  
as before. That is why we change  
our slogan "fighting the French  
and Japan" into "down with  
the Japanese imperialist fascist  
and the French fascists!"

# Yugoslavia guerillas' units

1- Yugoslava country is smaller than ours, its population is less than ours. It is invaded by Germany and Italy while we are invaded by Japan and France. Now Yugoslav guerillas' units have driven the German and Italian troops out of their borders, reestablished their government. They are now well-known all over the five continents.

2- Yugoslav guerillas' units comprise of thirty thousand persons. They fought against twenty-two divisions (fifty-two eight thousand troops) of Germany and Italy.

Last year, ~~only~~ in a single battle, they have killed and arrested more than:

- 3500 German and Italian soldiers, and destroyed:
- 230 machine-guns
- 17 tanks
- 2 billion bullets and ammunition.

3- Why was Yugoslav guerillas' units so heroic ~~like that?~~ and victorious like that? At first, they ~~also~~ were also short of food, clothing, guns and ammunition. They suffered hungry and hardship.

# News around our country and the world.

1- The U.S troops have won many victories in the Philippines and there are rumors in our country and abroad that U.S troops will land on the Ilocos to fight back the Japanese troops.

2- Our people in the enemy ranks (who are recruited the enemies' troops) this time will have to suffer many hardship. Everywhere we can hear their complains. If they station in the cities, every day they have to evacuate to avoid the enemy's air attacks, if not luck they will get bombed. If station in the country-side, they have to patrol all day long, they can't eat and sleep, the

d) Because they win the support of the people

They are very good at propaganda and organizing - that is why the enemy ruthlessly repress the people, they still support the guerillas. Some give money, some give rice. Some do spying activities, others do ~~mission~~ <sup>division</sup> work. Many people suffer hungry and shortage of clothing, even selling their houses and lands to help the guerillas.

e) Because they have patriotism

The Yugoslav people know humiliation of losing the country. They are determined to live in slave - but they hold that sacrificing for the country is glorious one. That is why people and guerillas unite as one. People wholeheartedly support guerillas, guerillas try utmost to attack the enemy. Thus Yugoslav guerillas have won many victories. The Yugoslav is liberated.

Now if we want set up guerilla to fight back our enemy, reestablish our country, we have to learn the experiences of the Yugoslav.

Then the wounded soldier complains that God witnessed for him that he did not want to go ahead to find out the revolutionaries. That he only advanced forward according to Mr Bo's shouting. He ~~meant~~ intended to climb higher and then find somewhere to hide himself, but accidentally he was hit by the bullets -
