Editorial Resolutely to oppose all
Manoeuvres of aggression (7)

During these 80 years the Vietnamese people are groaning under the yoke of the French imperialists. They have unceasingly risen up against them. Their struggle grew stronger with the movement Viet Minh. Now our national liberation Revolution has succeeded. A Provisional Government of the Democratic Republic of Vietnam has been formed. The close solidarity of the Vietnamese people under the flag of Viet Minh has obtained glorious results. But these successes

are only the beginning. The Gaullist French are preparing to come back for occupying our country. We must be vigilant to consolidate the people's power. At present, no doubt Viet Minh is the only organization leading the people in reconquering the independence. Let us abide by the Viet Minh's orders.
